Mobile No.		Email Id				
<p style="text-align: center;">Your feedback is valuable for the progress of the institute. <b>Strongly Agree(SA)   Agree(A)   Neutral (N)   Disagree(D)   Strongly Disagree(SD)</b> <b>Please tick() the appropriate option most suitable.</b></p>						
S.No.	Statements	SD	D	N	A	SA
1.	During your time as a student, the material on the course was important and in the right order. of courses during different program years or semesters were taught.					
2.	Power Point presentations, actual models, case studies, and other teaching tools made it easy to teach the lesson.					
3.	Before teaching the course material, the teachers talked about the Program Outcomes and the Course Outcomes.					
4.	The lessons and assignments were in line with each other, and they helped you understand the course.					
5.	Most of the classes have hands-on activities or practical work.					
6.	Rate the ease of learning based on the tools and materials in the Departmental/Central Library.					
7.	The program covered a lot of different subjects and helped students learn more.					
8.	In most of the sessions, training was part of the course work.					
9.	How do you rate the way the semester and final tests are run? Are they on time and cover all the material from the course?					
10.	How do you rate conduct of the End Semester exams with reference to the coverage of all the units in the courses.					
11.	Did you think the training or job you did while you were in college was useful and in line with current career trends and ideas?					
12.	Seminars, classes, field trips, group talks, competence tests, and other methods that focused on the student made you a caring worker with the right beliefs and approach.					
13.	It was the way the material was taught that helped me reach the program's goals.					
14.	The curriculum's cross-disciplinary and all-around education encouraged students to keep learning throughout their careers.					
		Rating from 1- to 10				
15.	How would you rate the program's curriculum as a whole?					
16.	In general, what are the three ideas you'd like to make to make the whole program at the school better?					
17.	Any suggestions for the curriculum improvement:
